REPLACEMENT SHEET

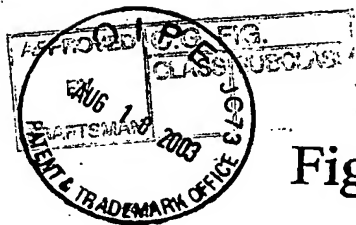

Fig.3

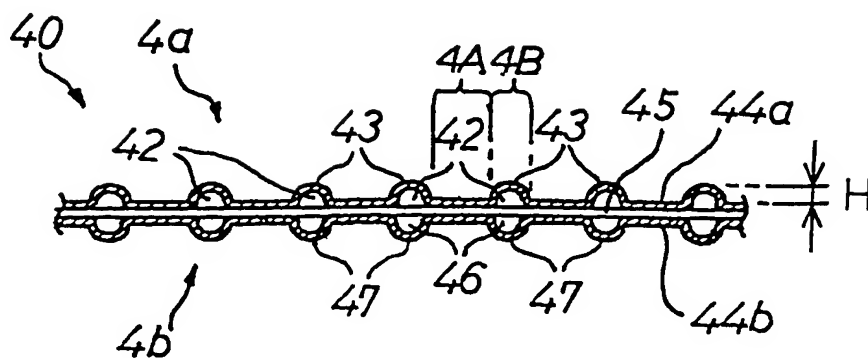

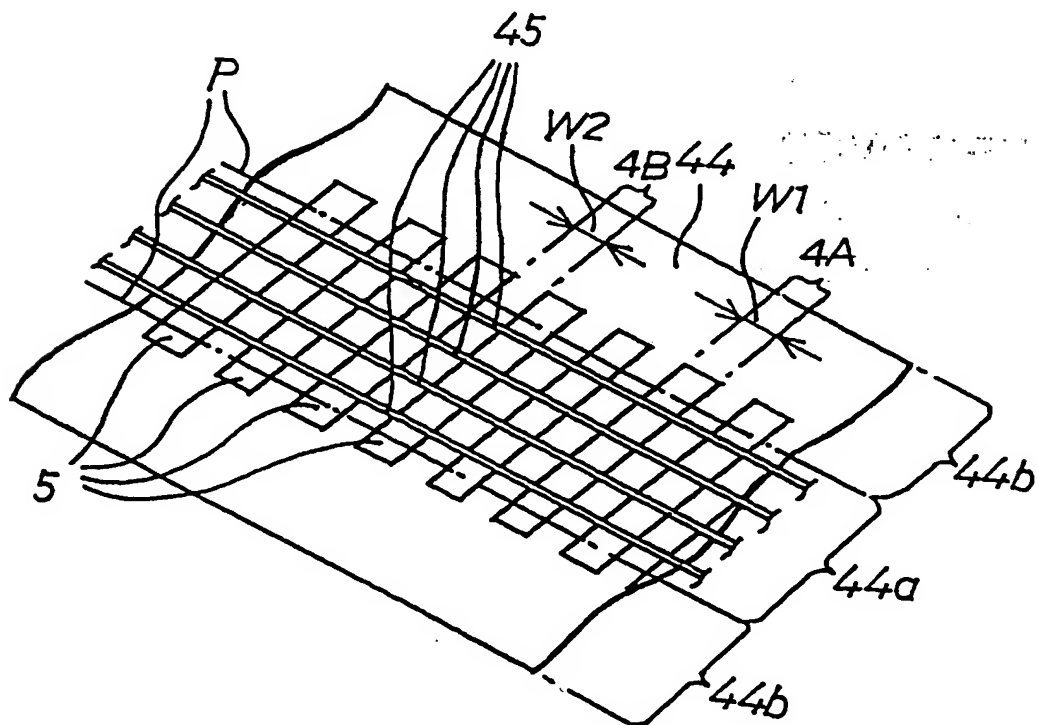

Fig.4

A cross-sectional view of a periodic structure. It features a series of rounded protrusions (43') on a base (45). The width of one protrusion is labeled $W3$, and the period (distance between centers) is labeled P . The protrusions are labeled 43' and 51. The base is labeled 45. The structure is shown in a perspective view with a dashed line 1' indicating a cross-section.
